PROFESSIONAL SKILLS

UX Design

- User Research
- Personas
- Information Architecture
- Interaction Design
- Usability Testing
- UX Audit
- Design Thinking
- Data Visualization
- Enterprise UX

UI Design

- Figma
- Adobe XD
- Responsive Design
- Design Systems
- UI Specifications
- Developer Handoff

Enterprise Platforms

- SaaS Products
- Cloud Platforms
- Dashboard & Analytics Design
- Data Visualization
- Workflow Optimization

Technical Collaboration

- Agile Scrum
- HTML
- CSS
- React Collaboration

DELIVERABLES

- User Personas
- User Flows
- Journey Maps
- Wireframes
- High Fidelity UI
- Interactive Prototypes
- Responsive Design
- Design Systems
- UI Specifications
- Developer Handoff
- UX Documentation
- Design QA

CORE EXPERTISE

- Enterprise UX
- Workflow Analysis
- User Journey Mapping
- UX Research
- Dashboard Design
- Data Visualization
- Design Systems
- Responsive UI Design
- Figma → Dev Handoff
- API-driven UX
- Agile/Scrum

EDUCATION

MCA
Dr. C. V. Raman University

B.Com
William Carey University

Diploma in Graphic & Web Design
Arena Animation

AWARDS & RECOGNITION

- Harman Be Brilliant Award

I'm a multidisciplinary designer skilled in wireframing, prototyping & visual design. My goal is to create seamless & enjoyable user experiences through form & function.

EXPERIENCE

Principal Consultant

Wipro, Dec 2025-Present

Principal Product UX Designer with 13+ years of experience delivering enterprise applications, cloud platforms, security products, and business-critical dashboards. Experienced in analysing complex user workflows, conducting UX research, identifying usability issues, designing responsive web interfaces, and creating scalable design systems using Figma.

Worked closely with Product Owners, Business Analysts, Architects and development teams following Agile methodologies. Strong experience creating user journeys, personas, wireframes, prototypes, UI specifications and developer-ready design documentation.

Lead UX Designer

Harman International, May 2023-Nov 2025

As UX Lead at HARMAN International, a global leader in connected technologies for automotive, consumer, and enterprise markets I designed enterprise web and cloud applications across IoT, cybersecurity, cloud management, media, and renewable energy domains.

Conducted user research, workflow analysis, and UX strategy to simplify complex business processes. Created user journeys, wireframes, high-fidelity UI designs, interactive prototypes, responsive dashboards, and reusable design systems.

Designed data visualization dashboards with KPI cards, charts, analytics, and monitoring interfaces to improve operational efficiency and decision-making. Collaborated closely with Product Managers, Architects, and engineering teams to ensure seamless Figma-to-development handoff while delivering scalable, accessible, and user-centered solutions for enterprise products.

Senior Product Designer

Engagedly Software India Pvt. Ltd., Nov 2021-Feb 2023

As a Sr. Product designer at Engagedly, I worked on

- Analysed existing product workflows and redesigned end-to-end user journeys to improve usability and product adoption.

- Conducted user research, usability testing and identified UX pain points to improve customer experience.

- Created wireframes, interactive prototypes, responsive UI designs and detailed design specifications using Figma.

- Collaborated closely with Product Owners, Business Analysts, Architects and Front-end developers in Agile sprints.

- Built reusable UI components and contributed to scalable design systems ensuring smooth Figma-to-development handoff.

Senior UX Designer

Wipro, June 2021-Nov 2021

As a member of the AMG team at Wipro, my primary responsibility is to deliver a world-class user experience for various in-house projects. To achieve this, I participate in usability testing and user research activities, working closely with the target users to understand their workflow, goals, and tasks. Based on these insights, I develop concept designs and create UI designs, using my expertise to craft engaging and intuitive interfaces.

UX/Visual Designer

Wipro Limited (For IDC Technologies Sol. Pvt. Ltd.), Nov 2020-June 2021

During my time at Wipro, I have had the opportunity to work on multiple in-house projects, leveraging my expertise in UX design to create engaging and intuitive user experiences. As a UX designer, my current role and responsibilities involve developing wireframes, site maps, schematics, flowcharts, and working prototypes based on project specifications.

One of my primary responsibilities is providing front-end developers with finalised, detailed design specifications, including assets for direct implementation. This ensures that the design is implemented consistently and accurately, resulting in a seamless user experience.

UX/Visual Designer

Wipro Limited (For HYVA IT Solutions), Oct 2019-July 2020

As a UX/Visual Designer at Wipro, I was responsible for creating all sketches, wireframes, and mock prototypes for Wipro's in-house internal communication web portal, "MY COMMUNICATION." This involved working closely with the development team and stakeholders to ensure that the design met the needs of the organization and its employees.

UX/UI Designer

CAASP Labs Pvt. Ltd., Aug 2014 - Sep 2019

As a UI/UX Designer at CAASP Labs, I led the development of our in-house school management software, EDUCAASP. My role involved crafting precise mocks tailored to project specifications. Leveraging my UI/UX expertise, I designed an intuitive interface benefiting administrators, teachers, and students. Additionally, I revamped the company's branding assets, including the logo and website.

Web & Graphic Designer

Synchronous Software Solutions, Feb 2012 - May 2014

During my time as a web and graphic designer at Synchronous, I was responsible for creating and coding web pages that met the requirements of our clients.

My role involved using a range of technical and non-technical skills to design and produce websites that were visually appealing, functional, and user-friendly.

Worked closely with the marketing and product development teams, I was also responsible for designing and laying out electronic and print materials for all programs and events. This included flyers, posters, banners, logos, newsletters, and other materials needed to promote events or programs. I ensured that the design and layout of all materials were consistent with the company's branding guidelines and communicated the message effectively to the target audience
